

Module 15: Mock MCQs Review

Facilitator Notes

Students should understand that questions will comprise of 97 pre- and post-exams conducted over 2.5 hours and will orient them to the practice of registered nurse, as well as legal and ethical standards as they are defined by the College of Registered Nurses Association (CARNA).

Example of multiple-choice question

A new mother is upset about her newborn having gestational diabetes. The nurse listens and provides explanations in order to address her concerns. What is the nurse demonstrating?

- a) Respect
- b) Trust
- c) Professional responsibility
- d) Empathy

Approach

First determine what the question is asking; secondly, locate the stem that identifies the question or problem. In this question, the nurse listens and provides explanation to the client's concerns. The correct answer is C (Professional responsibility).
