

Stencils to Create Patterns in Stucco and Decorative Concrete

DESCRIPTION AND USE:

These stencils are used to create faux patterns in vertical stucco or horizontal decorative concrete overlay systems. Multicoat's disposable templates are made from a specially coated paper to resist moisture penetration of the coating being applied. The adhesive is pre-applied in sheet form prior to cutting so that 100% of the stencil has the same amount of the quality adhesive. The adhesive has a good temporary bond to the surface it is being applied to and highly resists the transfer of glue. To expose the adhesive, simply remove the peel and release liner.

ADVANTAGES:

- Flat Sheets
- No Memory or Curling
- No Glue Transfer
- Consistent Adhesion
- Lay Straighter
- Reduced Bleed Under
- Identical Sized Sheets
- Boxes Can Ship Via UPS/FedEx
- Multiple Thicknesses
- Adhesive or Non Adhesive Available
- Custom Designs
- One Person Placement

BASIC USE:

Multicoat's stencils are designed for professional use. Typically used in the Stucco Industry and the Decorative Concrete Industry. The adhesive release paper is removed to expose the adhesive then the sheet is placed into position and seated to insure a good bond so that no edges are raised. The finish material, synthetic stucco or cement based materials are then applied and finished over top of the stencil and allowed to set. Once the initial set has taken place the stencil is removed which will expose the desired pattern.

PACKAGING:

Packaged in flat boxes. See back for specific packaging.

SUITABLE SURFACES:

The surface to which the stencil are being stuck to needs to be clean and free from dust, dirt, or any other containment that could interfere with proper bonding. The surface should be relatively smooth to prevent bleed under.

PHYSICAL APPEARANCE:

COLOR	White with light colored release liner
THICKNESS	.024 pt and .060 pt
ADHESIVE	Water Soluble
PAPER	Clay Coated Face
SERVICE TEMPERATURES	40°F to 105°F

LIMITATIONS:

Do not apply if ambient air temperature is 40° F and falling or above 105° F and rising. Do Not Leave Exposed to Rain as this will cause the adhesive to fail and will result in significant bleed under. Stencils are not intended to have paint like materials applied over them.

STORAGE:

Store at 40° to 90° F. Shelf Life is 36 months. Protect from freezing. For best results store boxes flat.

WARRANTY:

WARRANTY: Materials are guaranteed with respect to uniformity and quality within manufacturer's specifications.

WARRANTY DISCLAIMER: There are no warranties which extend beyond the description of the fact hereof. Seller expressly disclaims all other warranties regarding the use of its products, whether expressed or implied, including the implied warranties of merchantability and for fitness of a particular purpose. Since use of the product is beyond the Seller's control, the Buyer assumes all risk of use.

EXCLUSIVE REMEDY: Seller's sole obligation, and buyer's exclusive remedy shall be to replace material if found to be defective.

DAMAGE LIMITATION: Seller shall not be liable for any damages, injury, loss, direct or consequential, resulting from its products. The parties intend that the limitation of damages, including consequential damages, applies even if the exclusive remedy provided for herein fails of its essential purpose.

FOR PROFESSIONAL USE ONLY: Multicoat products should be used by licensed contractors. Multicoat is not a contractor and the contractor remains liable for all damages and inadequate product performance caused by construction means, methods, sequences and techniques that are used to install the product which may include: design and construction of the substrate and the selection and installation of all sealants, flashings, and related components.
