## **PEKO Wins 2020 Top Defense Manufacturing Award**

*Consulting company recognized for cradle-to-grave product development strategy.*

**ROCHESTER, N. Y.** — PEKO Precision Products, Inc. has earned the Top Defense Manufacturing Consulting/Service Companies award for 2020, a distinction bestowed by *Manufacturing Technology Insights* magazine. The award recognized companies that are at the forefront of providing defense manufacturing consulting/services and impacting the industry.

The recognition highlights the value of PEKO's cradle-to-grave strategy to help defense industry prime contractors bring state-of-the-art equipment such as communications systems, control modules and electronics cabinetry to the DoD market that satisfy stringent DoD requirements. With this approach, the company works on design-assist, development, and manufacturing of a product, and manages it through its lifecycle.

"We're honored to be recognized for our distinct cradle-to-grave strategy and in-house capabilities," said Vice President Sales and Engineering Dan Brokaw. "This award marks an exciting time in our company's evolution as a solution provider for defense OEMs looking for a supplier who can completely support their products from engineering and manufacturing develop to full production."

Among PEKO's full-service suite of manufacturing services it offers across 340,000 square feet of manufacturing space include:

- Machining
- Sheet metal
- Fabrication
- Welding
- Finishing
- Assemblies

The company also has international certifications such as: AS9100 and ISO9001 for Aerospace & Defense, ITAR and NIST/CMMC as standards for cybersecurity.

PEKO started in 1966 as a tool & die shop and soon after developed two divisions: Machining & Assembly and Systems Automation. Over the last 10 years, it transitioned the engineering group from automation into New Product Introduction engineering. Today, PEKO has eight separate locations within Rochester, New York.

**ABOUT PEKO** — Founded in 1966 as a precision tool fabricator, PEKO has grown into a multi-faceted advanced center for technology development and product commercialization. Today, from its expansive manufacturing space in Rochester, NY, PEKO offers a full suite of services to completely supports defense OEMs' products, from engineering and manufacturing development to full-rate production.
