

FOR IMMEDIATE RELEASE

PEKO to Showcase NPI & Contract Manufacturing Solutions at Marlborough Design-2-Part Trade Show

ROCHESTER, NY (September 14, 2021) – PEKO Precision Products, a leading contract manufacturer of machinery, equipment, and complex electro-mechanical assemblies, is excited to announce that the company will be showcasing its New Product Introduction and Turnkey Contract Manufacturing solutions at the Marlborough Design-2-Part Show, which will be held at the Royal Plaza Trade Center in Marlborough, MA, on Wednesday, September 29 from 9:00 AM to 4:00 PM and on Thursday, September 30 from 9:00 AM to 3:30 PM.

As the largest and longest running design and contract manufacturing trade show in the Northeast, the Marlborough D2P Tradeshow offers the opportunity for OEM engineers and purchasing personnel to connect with contract manufacturing expertise from more than 300 product categories for metal, plastics, rubber, and electronics industries.

PEKO continues to set the bar high by delivering complete solutions to customers across a broad range of industries and offers solutions that are durable, versatile, and scalable while keeping cost, quality, and delivery top-of-mind. Attendees can stop by booth #234 to learn about PEKO's full-service suite of in-house design, engineering, and contract manufacturing capabilities and to discuss the companies proven partnership strategies and past successes it has achieved.

To schedule a meeting with PEKO at the Marlborough D2P Tradeshow, contact Scott Baxter at sbaxter@pekoprecision.com. For further information on PEKO's contract manufacturing solutions, visit www.pekoprecision.com or call 585-537-6060.

About The Company:

PEKO Precision Products is a leading contract manufacturer providing end-to-end manufacturing solutions for machinery, equipment, and major electro-mechanical assemblies. From design and prototyping to production, PEKO's capabilities span the entire product lifecycle, including design, engineering, development, machining, sheet metal fabrication, electrical integration, assembly, and ultimately full-scale production.

PEKO also supports early-stage startups and programs through its New Product Introduction division, a dedicated space that adapts to the needs of early-stage manufacturing and supports low-volume builds that are still in the design phase, including alpha/beta builds and pre-production pilot builds.
