

## BAE SYSTEMS HONORS PEKO WITH GOLD TIER SUPPLIER AWARD

**ROCHESTER, NY (August 2, 2022)** – PEKO, a leading product development and contract manufacturing services provider, was recently honored with a **Gold Supplier of the Year** award by BAE Systems Combat Mission Systems in 2021. PEKO was selected from thousands of suppliers for its ability to deliver zero-defect products on time throughout the year. This award reflects our team's exceptional performance and contributions to BAE System's supply chain success.

The award was presented by BAE Systems' Partner 2 Win Program. The program is designed to achieve operational excellence and eliminate defects in BAE System's supply chain by raising the bar of performance expectations to meet the demand of current and future customers. It measures suppliers' average **quality and delivery performance** over the year, categorizing suppliers into five tiers. The Gold Tier is the highest achievable tier, representing suppliers with a quality and delivery score of 100%.

"We are honored to be recognized by our long-time partner BAE Systems as a Gold Supplier of the Year. Our team is committed to delivering the highest quality products on time, every time, which has earned PEKO the trust of some of the most demanding customers in the world. Receiving this award is testament to that commitment," said Dan Brokaw, VP of Sales & Engineering. "We look forward to continuing to provide the products and support needed by BAE Systems in future mission-critical programs."

PEKO is uniquely positioned with a **global manufacturing footprint** and **vertical integration** that allows us to rapidly respond to customer needs while always maintaining the highest levels of quality and safety. The company will continue to invest in its people, processes, and facilities to maintain its position as a leader in the [product development](#) and [contract manufacturing](#) market.

### **About BAE Systems:**

BAE Systems provides some of the world's most advanced, technology-led defense, aerospace, and security solutions. The company employs a skilled workforce of more than 83,000 employees worldwide and has operations in 30 U.S. states. Working with customers and local partners, BAE Systems develops, engineers, manufactures, and supports products and systems to deliver military capability, protect national security and people, and keep critical information and infrastructure secure.

### **About PEKO Precision Products:**

PEKO is a leading contract manufacturer providing turnkey manufacturing solutions for machinery, equipment, and major electromechanical assemblies. PEKO's contract manufacturing capabilities span the entire product lifecycle, including development, engineering, machining, fabrication, system integration, assembly, and full-scale production. To support startups and early-stage projects, PEKO's New Product Introduction (NPI) division provides a dedicated space for engineering development and low-volume pre-production builds, including prototype, alpha/beta, and pilot builds.
