

PEKO WINS 2022 MEDTECH INDUSTRY PIONEER AWARD

ROCHESTER, NY (December 13, 2022) – PEKO was recently honored with the Bio/Med Industry Pioneer award by [MedTech](#) at the annual MedTech Honors Ceremony held in Albany on November 1. This distinguished award acknowledges PEKO for its ability to blaze a trail of innovation under extraordinary circumstances.

For over 50 years, PEKO has been an invaluable partner to medical device makers and healthcare innovators. Through its [vertically integrated contract manufacturing services](#), it helps medical innovators bring modern, cutting-edge technology and solutions to market for positive change, and this award is an affirmation of that commitment.

Scott Baxter, Sales and Business Development Manager, says “It is an honor to be acknowledged by our peers in the medical industry. Our team has worked hard over the years to develop innovative solutions that advance the medical field and help shape the future of healthcare.” The team at PEKO is proud to continue innovating and serving the medical community.

MedTech is New York State’s trade association for the bio/med industry— an active association of over 100 pharmaceutical, biotech and medical technology companies, their suppliers and service providers, and research universities.

The annual MedTech Honors Ceremony celebrates the bio/med industry and the innovators who have made the biggest impact on the industry. The 2022 honors ceremony recognized PEKO and nine other organizations for awards including Industry Pioneer, Outstanding Contribution to the Bio/Med Industry, Project of the Year, Ecosystem Partner, Groundbreaker, Newcomer of the Year, and more.

About PEKO Precision Products (PEKO):

PEKO is a leading contract manufacturer providing turnkey manufacturing solutions for machinery, equipment, and major electromechanical assemblies. PEKO’s capabilities span the entire product lifecycle, including engineering, development, machining, sheet metal fabrication, electrical integration, assembly, and full-scale production. PEKO supports startups and early-stage projects through its New Product Introduction (NPI) division, a dedicated space that adapts to the needs of early-stage manufacturing and supports low-volume builds that are still in the design phase, including alpha/beta builds and pre-production pilot builds.
