## Combing Health Rays

# Combing Health Rays

Begin with both hands over the part of the body where the client has physical issues, concerns or a diagnosed illness.

Using your fingers like a comb, gather the silky Health Rays in your fingers and begin to comb upwards, directly away from the body.

In a healthy, vibrant person, Health Rays extend 12" from the surface of the body. Imagine Combing the Health Rays to extend the amount of available energy to the organ, system, gland or illness that the client is seeking to resolve.
