Subject: Greater Los Angeles County Vector Control District Notice of Intent to continue to apply Aquatic Larvicides and Adulticides for Vector Control as part of the District's Integrated Vector Management Program

Pursuant to the provisions stated in the National Pollutant Discharge Elimination System (NPDES) Permit (Order No. 2016-0039-DWQ) [General Permit No. CAG990004] adopted on March 1, 2016, by the State Water Resources Control Board, notice is hereby given that the Greater Los Angeles County Vector Control District intends to continue to perform larvicide, ultra-low volume (ULV) adulticide, as well as barrier adulticide applications as part of its Integrated Vector Management Program.

Permit regulations note that any pesticide product can be used that contains approved active ingredients, provided all pesticide label restrictions and instructions are followed. In addition, pesticides which fall under the "minimum risk" category can be used. The minimum risk pesticides have been exempted from FIFRA requirements.
