

WESTON'S POWDER-ON-POWDER
POWDURA[®]
EPOXY COATING
SYSTEMS

//////
A revolutionary tank coating system designed to address the challenges of corrosion & environmental factors.

We are a global manufacturer of storage solutions for both liquid & dry bulk storage tanks. With over 150 years of combined experience in the bolted tank industry, we provide comprehensive storage systems worldwide.

**Whether You Need a New Storage Application or
A Custom Solution - We Can Help.**

WHY CHOOSE WESTON POWDERCOAT

The Weston POWDURA® Epoxy Coating is an innovative tank coating system that effectively addresses corrosion challenges and environmental factors. Its exceptional durability, enhanced performance, and efficient application make it a superior choice compared to traditional coatings. With superior adhesion, excellent abrasion resistance, and enhanced protection against corrosive substances, clients who invest in Weston POWDURA® Epoxy Coating can expect minimal maintenance costs, extended tank lifespan, and contents' protection. Our commitment to excellence and innovation sets new industry standards, delivering a coating system that provides success and peace of mind.

For unmatched durability, performance, and efficient application, choosing Weston POWDURA® Epoxy Coating, delivers exceptional value to your assets. Our coating is certified to NSF/ANSI 61, making it ideal for water system components like fittings, pipes, tanks, and valves. Proper substrate preparation is critical for a successful application, which is why we go through our WPC process, thoroughly cleaning the steel substrate using a 5 stage chemical wash. Additionally, we provide a chemical conversion coating surface preparation treatment to achieve optimum thermal bond and coating performance. Our team conducts testing before the full-scale application to ensure the best possible outcome.

STANDARD COLOR OPTIONS

Custom colors available on request.

-  **Weston Blue ELS8-80003**
-  **White Terminal EWS8-80007**
-  **Desert Tan HHS8-30057**
-  **Smoke Gray HSA8-30014**
-  **Magic Green HGS8-90045**

Proudly manufactured in the Midwest and

PUSHING THE INDUSRY FORWARD THROUGH INNOVATION & PARTNERSHIPS.

THE **WPC** ADVANTAGES

The Weston POWDURA® Epoxy Coating is highly recommended for bolted steel tank applications in the industry. Our coatings utilize high-performance pigments & the POWDURA® Coating resin technology, meeting the strict requirements of AAMA 2604 for 5-year weathering durability. For over 10 years, POWDURA® has demonstrated exceptional performance and durability with in-field service applications. Its track record speaks for itself.

KEY FEATURES

- ✓ **High Performance Interior/Exterior Durability:**
Weston PowderCoat ensures long-lasting performance, even in challenging environments.
- ✓ **In-Stock Program:**
Our standard powder coatings are readily available, ensuring quick access to the desired products for efficient project completion.
- ✓ **Expanded Top Coat Options:**
Enjoy a wider range of top coat choices, providing more flexibility for design and aesthetics.
- ✓ **WPC Process:**
To achieve superior adhesion and coating performance, we ensure all steel substrates follow our WPC process.
- ✓ **Precision Laser Cutting:**
Our state-of-the-art laser cutting technology ensures precise and accurate cuts on steel panels, guaranteeing a perfect fit for your project.
- ✓ **Automated Coating Line:**
Our coating line is fully automated and streamlines the entire coating application process, resulting in greater efficiency and time savings. Our advanced QC/QA auditing system ensures that maximum quality is achieved during production, allowing for faster turnaround times.

EXPERIENCE THE WESTON DIFFERENCE AND DISCOVER A TRUSTED PARTNER

At Weston & Associates, we have a unique approach and an unwavering commitment to excellence when selecting a partner for your industrial projects. Our team of highly skilled professionals brings extensive experience and technical knowledge to every project.

We understand the complexities and challenges of industrial construction, and we pride ourselves on delivering exceptional results. From meticulous planning to flawless execution, we prioritize attention to detail and ensure that every aspect of your project is handled with utmost care. With the Weston Difference, you can expect a level of service and expertise that sets us apart in the industry. Trust that your project is in capable hands with Weston & Associates, as we are dedicated to ensuring your satisfaction.
